And I said there 25 souls of whom you had converted who have accepted Christianity - it is for their own interest as you give from a Paris and they can drink wine - therefore they put me to all themselves - but let it be that you have guided 25 souls during 10 years - Nevertheless I ask you during the 10 yrs. which you have had here - how have the Bohian Government advanced the Christian ~~mission~~ mission? So then I went on in the most learned manner explaining the different combination of light. I then pointed to the Milky Way and told of our sky legend concerning it. I said: The stars that we can see in the heavens are not one per cent of those that actually exist. I pointed people imagine this to be the only world of existence. But there are many - very many more worlds of existence. He emphasized the number of them very significantly - when asked about the number of stars in the universe.
